DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 9-12 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility.

Regarding to claim 9, the claim called for instructions to perform specified functions. However, to the examiner knowledge such instructions needed to be stored on some type of computer readable medium in order for the instructions to execute the specified functions. Thus, since no such computer readable medium is claim storing the instructions the claims is inoperative. See the following interim guideline for further details:

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 9, the claim define both a method and an apparatus. The claim as a whole is neither a definition of a method nor of an apparatus but is instead a hybrid of the two; it, therefore, does not define the invention in the manner contemplated by the second sentence of 35 U.S.C. Sec. 112 (see *In re Oakley*, 1935 C.D. 198, 454 O.G. 536, 73 F.2d 934, 24 USPQ 75).

Allowable Subject Matter

5. Claims 2 and 4-7 are allowed.
